PUR HOT MELT ADHESIVE

KEY FEATURES

- **High Bond Strength** — Superior adhesion for long-lasting performance on demanding substrates.

- **Heat & Moisture Resistant** — Maintains bond integrity in humid or elevated-temperature environments.

- **High Initial Bonding** — Excellent initial adhesion ensures the bonded substrate does not spring back after application.

- **Good Flowability** — Smooth, even application for a flawless finish on every profile.

- **Ultra Fine Glue Line** — Produces an extremely thin, nearly invisible glue line for a seamless, premium finish.

- **Wide Equipment Compatibility** — Compatible with standard hot melt dispensing, wrapping, and edge banding machinery.

- **Environmentally Friendly** — Low odour, no added formaldehyde, CARB PII compliant and eco-safe formula.

- **Cost Effective Solution** — Consistent performance that reduces waste and lowers overall production costs.
